

VITA
ANGELA M SAILE

Angela Maggart is a Change Management Specialist currently assigned to the Business Systems and Support Office at Marshall Space Flight Center (MSFC). Her focus is on organizational development and analysis for multiple projects in the Integrated Enterprise Management Program.

After beginning her career at MSFC in 1998 on a summer internship as a Computer Operator in the NASA Automate Data Processing (ADP) Consolidation Center (NACC), (now known as the NASA Data Center) she has gained progressively more responsible Information Technology experience. Her concentration has been primarily in Computer Operations, Network Configuration Control, Metrics Analysis, Remedy Change Request and Trouble Ticket vendoring/tracking, and Systems Activity Scheduling supporting the 30,000+ National Aeronautics and Space Administration (NASA) user community. Her experience and formal education cover a wide spectrum of the technical and business requirements used daily in the performance of her job.

Ms. Maggart's change management skills are primarily related to System Software change management. Her experience comes from her role as Administrator of the NASA Data Center (NDC) Change Request System that tracks hardware and software changes to the baseline of mainframes and midrange servers that support MSFC and Agencywide NASA projects. She was responsible for maintaining and monitoring the system, as well as providing training and support for all Agencywide users of the system. She was a key player in the implementation of several Agencywide NASA projects/servers into the Change Request System, including most recently, the Common Badging Access Control System (CBACS), Headquarters Enterprise Messaging Initiative (HEMI), and NASA Integrated Service Environment (NISE).

Ms. Maggart attended Paint Rock Valley High School, where she graduated as Valedictorian of her senior class. She received multiple scholarships that supported her college career, which began at Northeast State Community College. Angela completed her Bachelor of Business Administration Degree in Management at Athens State University (ASU). While attending ASU, Angela completed multiple Computer Networking Certifications that were offered in conjunction with the National Association of Communication Systems Engineers.

Ms. Maggart is the daughter of Jimmy and Rita Maggart, who have been happily married for 27 years. She has one sister, Valerie, who is married and has one daughter. Ms. Maggart's niece, Alexis, is the sunshine of her life. In her spare time, Ms. Maggart enjoys spending time with her family and her boyfriend, Craig. She is also enjoying the various remodeling projects on the home she purchased in February, 2005. She is a member of the National Association of Communication Systems Engineers. She is also a member of Garth Union Baptist Church.
